ABOUT ME

Motivated and enthusiastic Computer Science Engineering graduate from APJ Abdul Kalam Technological University with a CGPA of 7.91. Currently pursuing Python Full Stack Development training to strengthen practical expertise in frontend and backend technologies, web development, database management, and REST APIs. Presently undergoing an internship at Foxfennecs Technology, gaining hands-on experience in real-world software development. A quick learner with strong communication, teamwork, problem-solving, and analytical abilities, eager to contribute effectively to software development projects.

INTERNSHIP AND TRAINING

Foxfennecs Technology | 06/2026 - Current | Calicut

- Gained hands-on experience working on real-world software development projects.
- Assisted in setting up Flutter, Angular, and Spring Boot development environments using Antigravity.
- Worked with frontend and backend technologies, project workflows, debugging, testing, and troubleshooting.
- Collaborated with team members to understand requirements and contribute to web and mobile application development.
- Enhanced practical skills in software development, problem-solving, version control, and modern development tools.

Python Full Stack Development | 11/2025 - Current

- Gained practical experience developing full-stack web applications using Python technologies.
- Worked on frontend/backend integration, database management, REST APIs, responsive pages, and CRUD operations.
- Worked with HTML, CSS, JavaScript, Bootstrap, and Django while improving debugging and problem-solving skills.
- Learned software development lifecycle, version control, and deployment basics.

EDUCATION AND TRAINING

Bachelor of Technology in Computer Science — APJ Abdul Kalam Technological University | CGPA: 7.91/10 | 07/2022–06/2026 | Thiruvananthapuram, India

Higher Secondary Examination — Government of Kerala | 97% | 06/2020–03/2022 | Kozhikode, India

Secondary School Leaving Certificate — Government of Kerala | 98% | 06/2019–03/2020 | Kozhikode, India

SKILLS

Technical: Python, JavaScript, HTML, CSS, Bootstrap, Django, React, REST API, MySQL, PostgreSQL, Git, GitHub, VS Code, Antigravity, Flutter, Angular, Spring Boot, Microsoft Word, Excel.

Soft: Leadership, Problem Solving, Team Collaboration, Time Management, Communication, Analytical Thinking.

LANGUAGE SKILLS

Malayalam: Mother tongue | English: B2 | Hindi: A2

ACHIEVEMENTS

Best Indoor SPC Cadet — Awarded during 10th standard for excellence in discipline, leadership, and active participation in Student Police Cadet activities.

PROJECTS

CNN Driven Tomato Leaf Disease Detection

- Developed a deep learning model using CNN to detect tomato leaf diseases from images.
- Performed image preprocessing, dataset handling, and model training using Python.
- Implemented disease classification for multiple tomato leaf diseases and gained practical experience in machine learning and image processing.

Django Attendance Management System

- Developed a web-based attendance management system using Django and Python.
- Implemented attendance tracking, database management, and user authentication.
- Designed attendance recording and report generation modules, gaining practical full-stack and backend development experience.
