ABOUT ME

Computer Science Engineering graduate from APJ Abdul Kalam Technological University with a CGPA of 7.91, with hands-on experience in Flutter, Angular, Spring Boot, Django, REST APIs, and databases. Currently gaining professional experience at Foenix Technology, contributing to web and mobile application development. Interested in opportunities involving Flutter, Angular, and full-stack development.

INTERNSHIP AND TRAINING

Foenix Technology

06/2026 – Current
Calicut

- Contributed to real-world web and mobile application development using Flutter, Angular, and Spring Boot.
- Set up and configured Flutter, Angular, and Spring Boot development environments using Antigravity.
- Worked with REST APIs and frontend-backend integration during application development.
- Debugged, tested, and integrated frontend and backend components during application development.
- Worked with Git and GitHub for version control and project collaboration.
- Collaborated with team members to understand requirements and implement application features.

Python Full Stack Development

11/2025 – Current

- Developed practical knowledge of full-stack web application development using Python technologies.
- Worked on frontend and backend integration, database management, and REST API development.
- Developed responsive web pages and implemented CRUD operations in practical projects.
- Worked with HTML, CSS, JavaScript, Bootstrap, Django, and databases.
- Improved debugging, problem-solving, and software development skills through hands-on tasks.
- Gained an understanding of software development lifecycle, version control, and deployment fundamentals.

EDUCATION AND TRAINING

Bachelor of Technology in Computer Science

APJ Abdul Kalam Technological University

CGPA: 7.91/10

07/2022 – 06/2026

Thiruvananthapuram

Higher Secondary Examination

Government of Kerala

Final Grade: 97%

06/2020 – 03/2022

Kozhikode

Secondary School Leaving Certificate

Government of Kerala

Final Grade: 98%

06/2019 – 03/2020

Kozhikode

SKILLS

Technical Skills

Programming: Python, JavaScript

Frontend: Angular, Flutter, HTML, CSS, Bootstrap, React

Backend: Spring Boot, Django, REST APIs

Database: MySQL, PostgreSQL

Tools: Git, GitHub, VS Code, Antigravity

Soft Skills: Leadership, Problem Solving, Team Collaboration, Time Management, Communication, Analytical Thinking

LANGUAGES

- **English:** B2
- **Malayalam:** Native
- **Hindi:** A2

ACHIEVEMENTS

Best Indoor SPC Cadet — Recognized for discipline, leadership, and active participation in Student Police Cadet activities.

PROJECTS

Tomato Leaf Disease Detection — Django, Python, MobileNetV2, SVM

- Developed a Django-based web application for tomato leaf disease detection.
- Used MobileNetV2 for feature extraction and SVM for disease classification.
- Implemented image preprocessing and dataset preparation for model training.
- Added multi-image prediction and database-based prediction history.

Django Attendance Management System

- Developed a role-based attendance management system using Python and Django.
- Implemented user authentication, attendance tracking, and database management.
- Automated attendance calculation and report generation.
- Implemented email notifications for students with attendance below 75%.

COMPANY PROJECTS

Divine Gold App — Flutter

- Contributed to Flutter UI development and API integration.

Hayvan Company Website — Angular

- Contributed to responsive web UI development using Angular.

Libra App — Flutter

- Worked on Flutter application development and frontend integration.

Student Admission App — Flutter, Spring Boot

- Worked on frontend development and REST API integration between Flutter and Spring Boot.
